Direct access to containers and filter by group, flow, fill rate

Dynamic visualisation of filling curves

Creating and managing alerts

Visualisation of fleet status and fill level

High security and easy integration

HEYWASTE WEB
BUSINESS PLATFORM FOR THE SUPERVISION OF SMART REMOTE SENSORS

Heywaste Web is a simple and secure platform that allows you to monitor all your containers. It offers real-time visualisation of container filling according to each waste stream and provides accurate information on filling rates. Personalised alerts help you anticipate overflows and limit unnecessary trips.

BENEFITS & FEATURES

A SINGLE TOOL TO MONITOR YOUR CONTAINERS

- View your containers at a glance, according to flow and fill rates
- Access the details of each container: name, location, flow, model, etc.
- Compare filling curves using clear and dynamic graphs
- Create and manage alerts to anticipate collections and avoid overflowing
- Manage user profiles and rights

EASY IMPLEMENTATION

- Simple and intuitive interface
- Summary dashboard providing a complete overview of the location and status of containers
- Training and support provided by us
- Dedicated back-office support
- Thanks to our APIs, Heywaste Web is interoperable with geolocation software: Unico, CLS, Simpliciti, Mobil Inn, Bams, Kerlog

HEYWASTE INSTALLER

- Guided installation: the application guides you step by step through the installation of your sensors
- Simplified management: you can easily modify the information for a container (address, name, flow)
- Tutorial videos to help you
