

SYREN BUSINESS PLATFORM FOR ACCESS CONTROL SUPERVISION

With Syren, secure access to your containers, track every opening in real time, and automate your billing. Compatible with market software and based on reliable communication technologies (Lora, LTE-M, NB-IoT), the platform provides traceability, savings, and simplicity in your waste management.

BENEFITS & FEATURES

ONE TOOL TO SUPERVISE INCENTIVE-BASED FEES

- ◆ Install new containers, uninstall the old ones, relocate them
- ◆ Control container access via badge, QR code, or the Ecopass app
- ◆ Accurately track container drum openings and closings
- ◆ Manage households without billing software

EASY IMPLEMENTATION

- ◆ Simple and intuitive interface
- ◆ Team training provided by us
- ◆ Dedicated back-office support
- ◆ System setup by our technical teams
- ◆ Thanks to our APIs, Syren is interoperable with:
 - > Billing software: Tradim, Styx, ATPMG, Gesbac
 - > Geolocation software: Unico, CLS, Simpliciti, Mobil Inn, Bams, Kerlog

2 MOBILE APPLICATIONS

- ◆ **Ecopass:** designed for permanent residents or occasional users, Ecopass replaces traditional opening badges.
- ◆ **Redin Tech:** designed for field teams, Redin Tech retrieves container data via Bluetooth, even in network-free areas.
